

Supported versions and OS's Automation Software

Updated February 2019

The following table outlines the currently supported version of GE Digital's Automation, Historian and Manufacturing software. GE Digital's current lifecycle policy is to provide ongoing support for 2 years for a version after a new major version is released. That is followed by 3 years of extended support which is comprised of 2 years maintain support followed by a year sustaining support. Please see GE Digital's Lifecycle Policy for more details.

Note: For some applications that are sourced, our policy may be to only support the latest versions, and upgrade customers as needed.

Product	Supported Versions (latest in Bold)	End of Ongoing Support	End of Extended Support (End of Life)	OS Support for latest version
iFIX	6.0			Microsoft® Windows® 10 (32-bit or 64-bit), Pro or Enterprise Edition.
